SUMMARY

Full-Stack Developer specializing in building modern web applications, scalable REST APIs, and responsive front-end interfaces. Proficient in JavaScript, React.js, Python, and Django REST Framework. Experienced in handling spatial databases with PostGIS, managing asynchronous task queues with Celery, and trained in cloud infrastructure management (AZ-104 Coursework via Packt/ Coursera).

TECHNICAL SKILLS

- **Frontend:** React.js, JavaScript (ES6+), HTML5, CSS3, Bootstrap, Responsive Design
- **Backend & APIs:** Python, Django REST Framework, Flask, RESTful API Design
- **Databases & Caching:** PostgreSQL, PostGIS, Celery, Redis Foundations
- **Cloud & Tools:** Microsoft Azure (AZ-104 Coursework), Git, GitHub, Modern CSS Architectures

CERTIFICATIONS

- | | |
|---|--------------|
| • AZ-104: Microsoft Azure Administrator (Coursera – Pact Program) | Feb 24, 2026 |
| • Introduction to DevOps | Dec 18, 2025 |
| • Generative AI: Introduction and Application | Oct 22, 2025 |
| • Introduction to Cloud Computing | Sep 26, 2025 |
| • CCNA: Introduction to Networks | Apr 30, 2025 |
| • Agile Software Development | Dec 1, 2024 |
| • Cybersecurity Essentials | May 25, 2024 |

ACADEMIC PROJECTS

Krishi Sakhi – Scalable Web Platform

- Architected a full-stack web application backend using Django REST Framework to serve interactive UI components.
- Implemented Celery worker queues to handle non-blocking asynchronous requests, ensuring low-latency user interactions.

MediScan – Image Processing Web Service

- Engineered a web service backend using Python and Flask/Pillow to handle user file uploads and image manipulation pipelines.
- Built optimized API endpoints for background data extraction and automated image analysis rendering.

TRAINING

Web Development Intern | Internship Studio

(May 2026 – Jun 2026)

- Built modular, reusable client-side UI components using React.js, JavaScript, and Bootstrap.
- Applied modern CSS techniques and front-end optimization methods for production-ready designs.

Cisco Cybersecurity Training – BSNL BRBRAITT (Cisco Networking Academy)

- Completed 70 hours of intensive cybersecurity training (2 weeks).
- Developed strong foundations in cybersecurity concepts, network security, and threat mitigation.
- Training conducted at BSNL BRBRAITT, Jabalpur, under Cisco Networking Academy.

EDUCATION

B.Tech in Computer Science and Design (CSD) | Gyan Ganga Institute of Tech & Sciences
(2022 – 2026)

CGPA: 8.32
